

Maximizing space and creating a beautiful work environment

Orange County Teachers Federal Credit Union Requirements:

When Orange County Teachers Federal Credit Union expanded into their new facility, adjacent to their current corporate headquarters, they needed to maximize the density of the space while maintaining the budget requirements of the project. They also required an open and friendly environment for each of the 300+ employees occupying the space, while maintaining a practical, no-frills feel.

IOS Solutions: Orange County Teachers Federal Credit Union chose H. Hendy & Associates to design their new space and Interior Office Solutions to furnish it. Utilizing the Haworth Premise panel system and National Office products, Interior Office Solutions provided the product solution and service capability to furnish the entire project. The furniture systems “serpentine” design met the budget, as well as the aesthetic and functional requirements of the project. Their customer service department has become more efficient and the space allows each OCTFCU team member the open feel and privacy they need.

PROJECT SPECIFICS:

- 60,000 sq. ft.
- 300 Haworth premise workstations
- 9 National private offices
- 7 National conference rooms
- 3 training rooms
- 2 break rooms
- 350 Haworth Look task chairs

ORANGE TEACHERS FEDERAL CREDIT UNION AT A GLANCE:

OCTFCU is the premier credit union in southern California. Founded in 1934, OCTFCU strives to improve the financial lives of school employees.
