

NEO

## Brains and beauty

It's a hard combination to beat. NEO™, Haworth's floor-to-ceiling moveable wall, gives you function wrapped in nothing but form. Hallways lined with the rich beauty of wood millwork, or if you prefer a contemporary look; aluminum and glass – it all disguises the hardnosed financial benefits of NEO's adaptability. When your space needs changes, the walls move to suit. Look great. Work hard – the NEO motto.

Walls

# NEO™

## Contemporary or traditional – you decide

NEO™ comes in elliptical wood veneer frames and muntins, with center mounted glass. Available in all of Haworth's standard veneers. If aluminum framing is more appropriate, choose from a wide variety of standard powdercoat finishes or provide us with a color sample to match. You can even decide to conceal or expose the handsome sliding door hardware.
