

Appreciate Tempo's contemporary styling from every angle. Experience the comfort. Proper lumbar support, contoured seat cushions and extended arms help people get into (and out of) the chairs easily.

Superior Comfort

Modular Componentry

Tempo Series is as practical as it is inviting.

Modular, preconfigured and freestanding components

comprise the basic series. "Floating" chair arms are curved for comfort and extended for ease of entry.

Adjustable foot glides compensate for uneven floors.

In addition, the "wall saver" leg design prevents

damage to adjacent walls.

Specify tempo fully upholstered or open. Choose arms in maple laminated plywood or soft, molded urethane for high traffic areas.
